BYOD at Oxley College

ices as part of the BYOD programme. This programme
s. These de s in Years 5 to 12 are required to par cipate in the Bring Your Own Device (BYOD) programme at Oxley College.
hat computers per student. Under the BYOD approach, students bring a computer to Oxley College to support their learning needs. Computers are
rolled student at Oxley College. eren a ng and personalising a student's educa on, and student-owned devices facilitate
student choice over which device best suits their learning and communica on style.

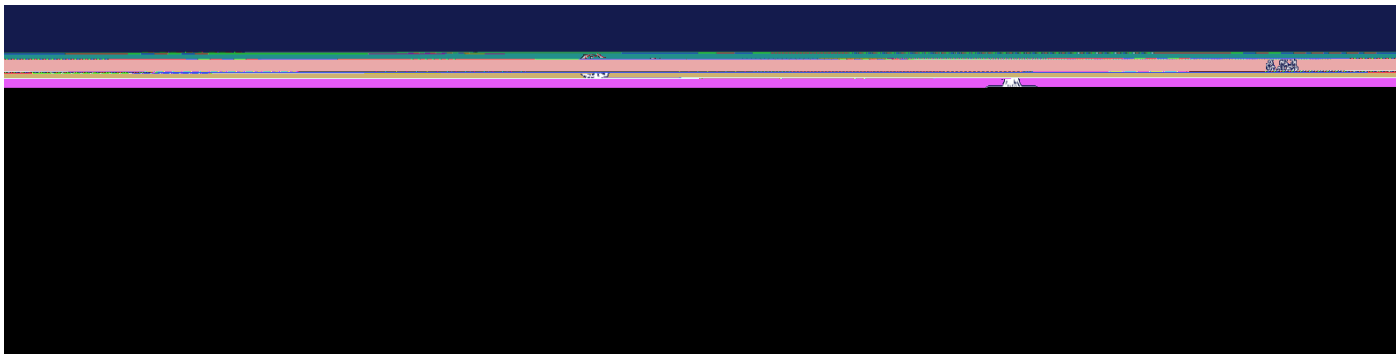
Under the programme, a laptop of a minimum standard is supplied privately by the student and their family then

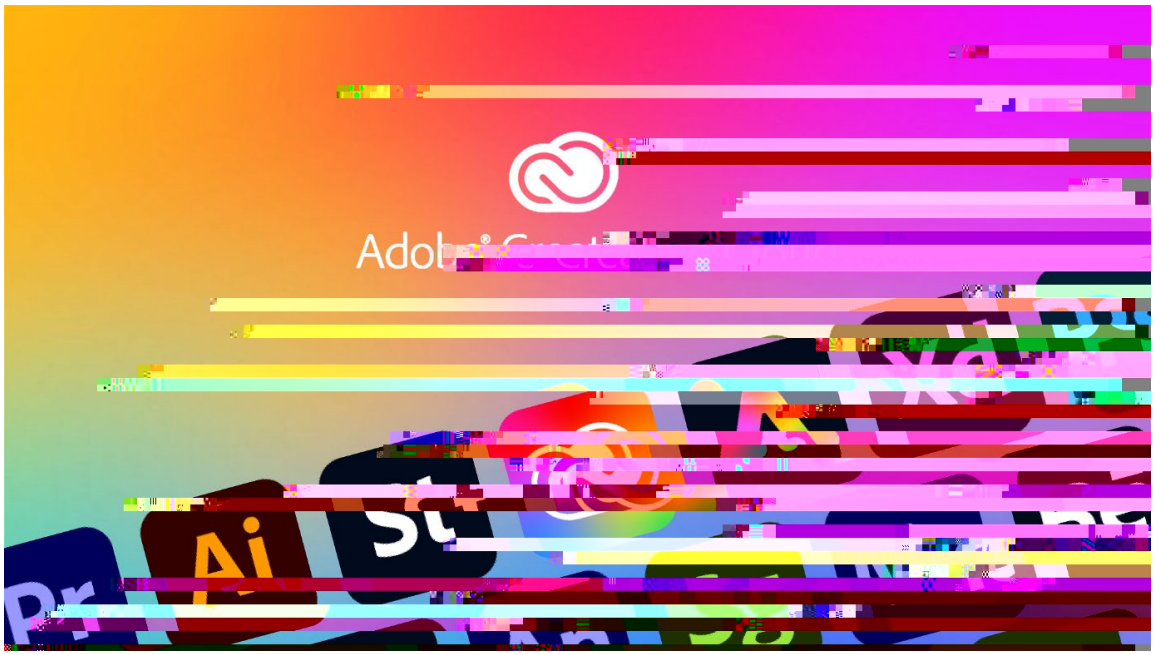
Microso 365 A3 for students

Benefits include:

- We provide an "@oxley.nsw.edu.au" student email address.
- O ce apps on up to 5 devices:
  - Outlook
  - Word
  - Excel
  - PowerPoint

  ...and more!



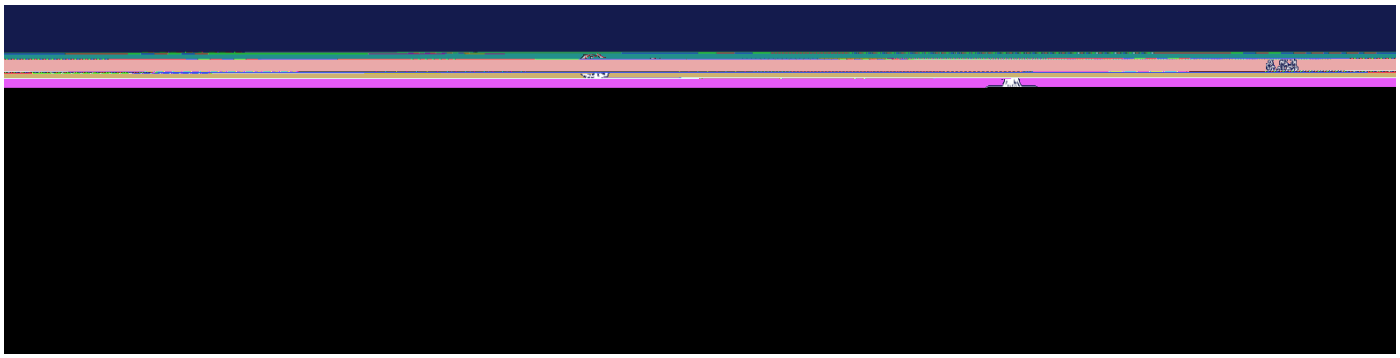


Help and Support

We have an IT Helpdesk onsite, located in the library. Standard services include:

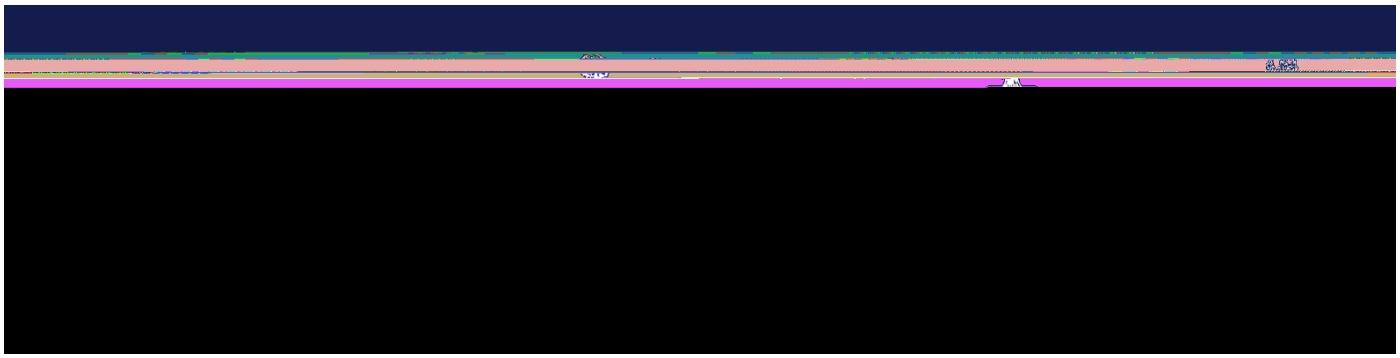
- Connec ng your BYO computer to the school Wi-Fi and printer.
- Assistance installing college approved apps.
- Provide a loan laptop if your child's computer is away for repair (subject to availability).

The helpdesk will make a best e ort a t empt to resolve any so ware issues and assist in troubleshoo ng hardware problems. If a case needs to be referred to a carer or parent, the Helpdesk agent will do so through a representa ve of the Academic team such as a teacher, student mentor or Head of House.

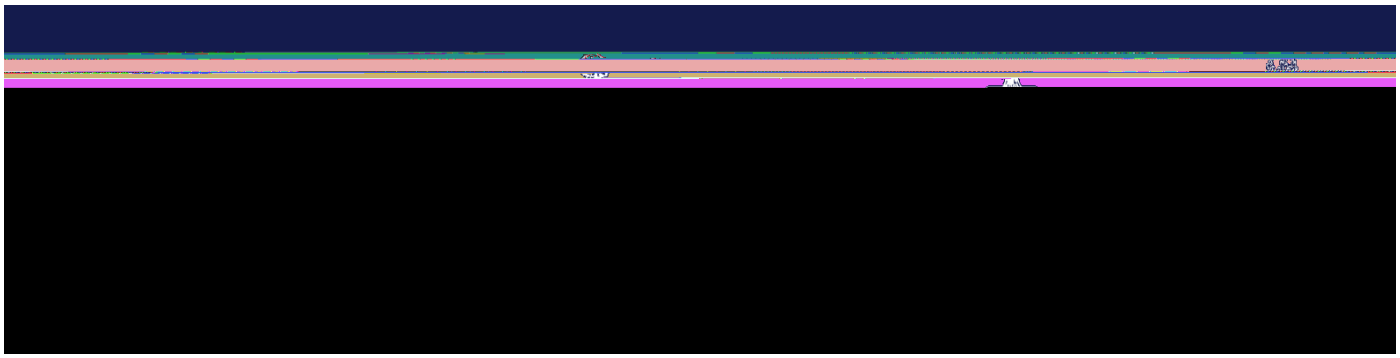


Network security

As part of our Duty of Care for students, we u lise a variety of tools to protect our network and to ensure your child is



- Please consider whether digital inking (using a stylus to take notes or for digital illustra on) is a poten al requirement. Many devices support touchscreens but do not have digital stylus support.



Storage

256Gb

- Accidental Damage Protec on is highly recommended.
- Extended warranty to 3-years of coverage is highly recommended.
- Biometric login capabili es such as face unlock, or fingerprint reader are highly recommended.

These minimum specifica ons and recommended extras are reviewed each year.
